

Developing a whole school approach to parental complaints (for Governors and Trustees)

Overview

If managed poorly, parental concerns and complaints can consume huge amounts of school leaders' and the boards' time. Effective complaints management can lead to more content parents/carers and school leaders.

This course helps boards understand why parents complain, review their complaints policy and practices, explore how to make them as robust and effective as possible, and ultimately reduce the number of parental concerns making it the formal complaints stage. It also guides attendees on how to run a complaints panel.

What you will learn:

- Understanding why parents complain
- The importance of developing a whole school approach to complaints
- What should be included in your complaints policy
- The roles of a Governor, the Board and a Panel
- Sharing best practice examples
- Up to date guidance on handling complaints

All delegates receive an electronic copy of the presentation and supporting materials and resources to help them be more impactful in their governance role.

Who should attend

School leaders and chairs who want to review their approach to dealing with parental complaints.
